Profile

I'm an IT 3rd year student here, having some solid coding and leadership skills. I'm not just into the tech grind – I'm also hustling on an exciting startup idea. As an engineer, I'm all about sniffing problems and finding smart ways to fix them. I'm that curious, hardworking type, always digging into challenges.
As a practitioner of design thinking, I specialize in incorporating user-centric principles into problem-solving processes, ensuring functionality and user appeal are prioritized in the solutions developed. In addition to my technical proficiency, I have assumed the position of team leader at E-cell NIET, contributing a dynamic leadership dimension to my skill set.
If you seek an individual proficient in coding, adept at leadership, infused with design expertise, and experienced in leading teams, I am well-suited for the role.

Education

Bachelor of Technology in Information Technology **2021 - 2025**
(Noida Institute of Engineering and Technology (NIET Noida), India — CGPA: 7.26)
12th Grade **2020**
(Kendriya Vidyalaya Kanpur Cantt, Kanpur, India — 75.2%)
10th Grade **2017**
(Kendriya Vidyalaya Kanpur Cantt, Kanpur, India — CGPA: 8.4)

Projects

Project 1: Portfolio Website

Portfolio
Description: A sleek portfolio website with HTML, CSS, and JavaScript, showcasing my skills and achievements.
Technology: HTML, CSS, JS

Technical Skills & Tools

Technology: Python, Java, HTML, CSS, JavaScript, Machine Learning, API testing, AI Prompting.
Tools: Visual Studio Code, Eclipse, Google Colab, Jupyter notebook, MySQL Workbench, Postman.

Certifications & Internships

Python Basics
Object Oriented Programming Using Java
Java Programming: Arrays, Lists, and Structured Data
Python for Data Science, AI and Development
Introduction to Artificial Intelligence (AI)
Human-Centered Design for Inclusive Innovation
Introduction to NoSQL Databases
Databases and SQL for Data Science with Python
Introduction to Web Development with HTML, CSS, JavaScript
Introduction to Cloud Computing
Oasis Infobyte Web Development and Designing Internship

Soft Skills & Interests

Strengths: Problem-solving, Quick learner, Networking, Team management & Team work, Leadership.
Interests: Programming, Research & Innovation, Reading, Sketching, Event-management.
