Profile

I am a fourth-year IT student with strong coding and leadership skills, passionate about solving complex problems with smart, innovative solutions. As a design thinking practitioner, I prioritize user-centric problem-solving. My role as the team leader at E-cell NIET has further honed my leadership abilities. If you're seeking someone skilled in coding, leadership, and design thinking, I would be a strong candidate for the position.

Technical Skills & Tools

Technology: Python, Java, HTML, CSS, Machine Learning, AI Prompting, Data analytics
